SKILLS

Technical:

Basic of Virtualization, EC2 Instance, EBS Volume Type of EBS Volume Amazon Machine Image (AMI) Launching an EC2 Instance Create Public/Private Key Pair

EC2 SLA Shared & Dedicated Host, dedicated Instance EC2 Instance State Stop & Start of EC2 Instance EC2 Shutdown behaviour Enable EC2 Termination Protection EC2 Elastic IP EC2 Instance State like stop, start, hibernate.

Create Snapshot of EBS Volumes Restore Snapshot Incremental Nature of snapshot Copying Snapshot Migrating EBS from one AZ to another AZ using Snapshot Migrate EBS from one Region to another Region using Snapshot, Load Balancer, Types of Load Balancer, Autoscaling.

CERTIFICATIONS

AWS Certified Cloud Practitioner **Date issued: July 24, 2025 Expires: July 24, 2028**
AWS Certified Solution Architect Associate **Date issued: April 17, 2026 Expires: April 17, 2029**

EXPERIENCE

Frontier Group International Ltd Riyadh, Saudi Arabia. **March 2023 – Present**

Technical Coordinator

- Planning and Scheduling: Creating and managing project timelines, schedules, and calendars.
- Communication: Facilitating communication between team members, stakeholders, and clients.
- Team Leadership (for Team Coordinators) Providing guidance and support to team members, fostering collaboration, and ensuring team objectives are met.
- Problem Solving Identifying and resolving issues that may arise during project execution
- Meeting Coordination: Organizing and facilitating meetings, including scheduling, logistics, and material preparation

Aegis Customer Support Limited **Nov-2021 – Dec 2022**

Customer Support Associate

- Responding to Customer Inquiries: Addressing questions via various channels such as phone, email, live chat, and social media. This often involves providing detailed information about products or services and guiding customers through processes.
- Problem Solving: Identifying the root cause of customer issues and finding efficient resolutions. This may require troubleshooting technical issues, coordinating with other departments, and ensuring problems are resolved
  swiftly.
- Documentation and Reporting: Keeping accurate records of customer interactions, complaints, and resolutions. This is essential for future reference and helps improve service quality by identifying recurring issues.
- Customer Education: Providing guidance and training to customers on how to use products or services effectively, which can reduce the frequency of support requests and improve customer satisfaction.
